GREENYEARS 1978

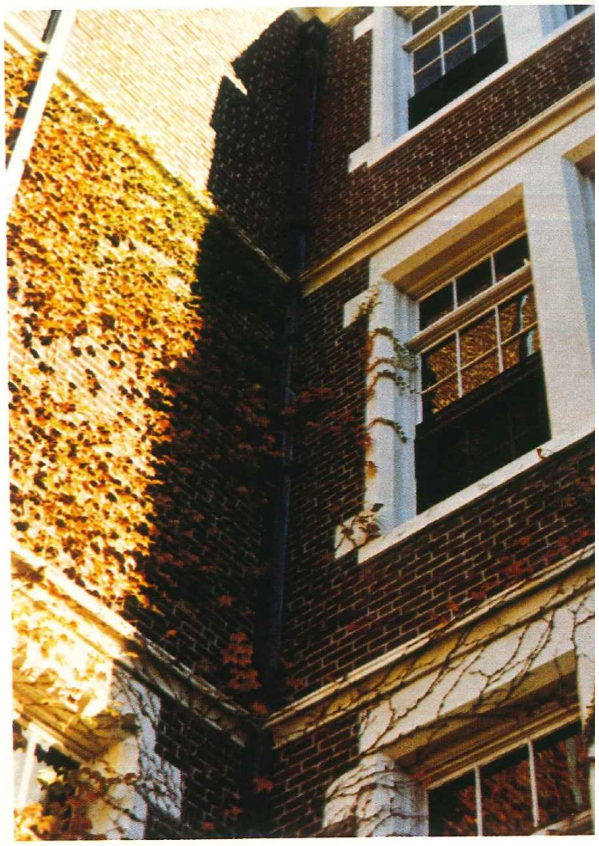

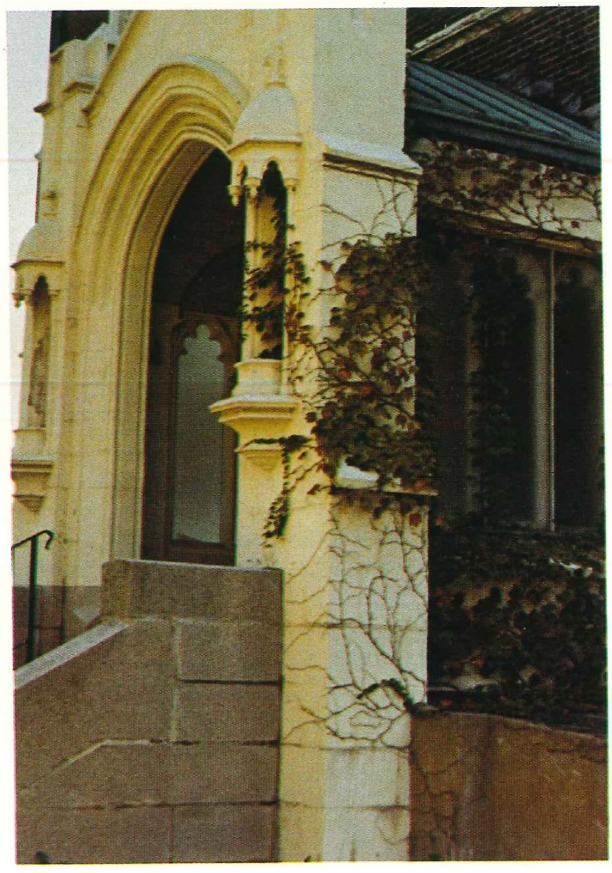

"Who prologue-like your humble patience pray,
Gently to 'read', kindly to judge our play."

King Henry V

It has been our express purpose to deliver to you a memory book which will arrest in both picture and prose your experience at Massachusetts Bay Community College. We have found something profitable to recollect and to learn from. The panorama of student, administrative, staff and faculty activities and the ramifications which have been captured in both the light and serious moments are presented here, to be scrutinized and judged sagaciously, for it is you we portray. It is our sincere wish that out of regular learning and regular activities, all of you have wrought superior lives.

GETTIN READY

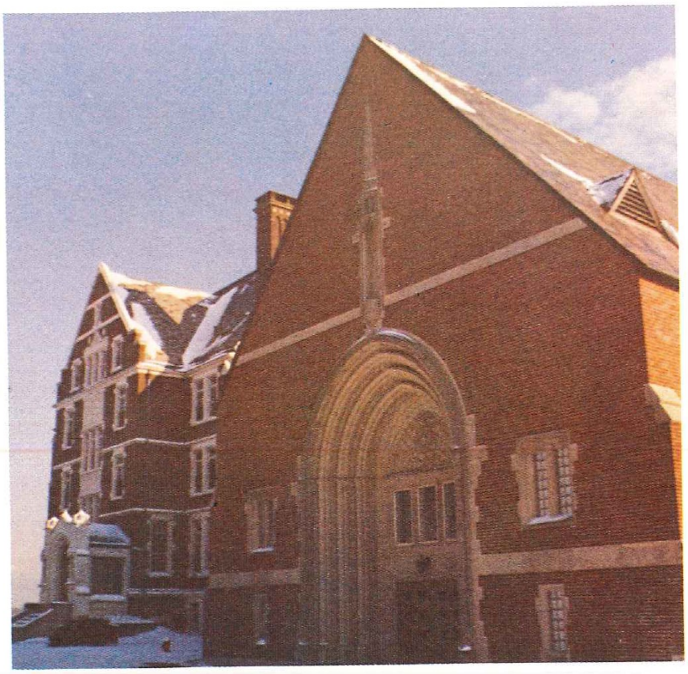

At the beginning of each school year, there are many opportunities to become involved in student activities such as clubs, committees, social and cultural activities. Getting involved in activities is not only rewarding to the school, but is doubly rewarding to the student.

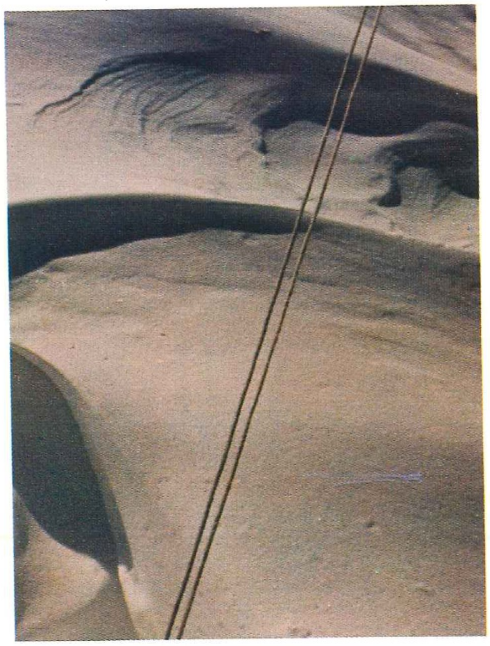

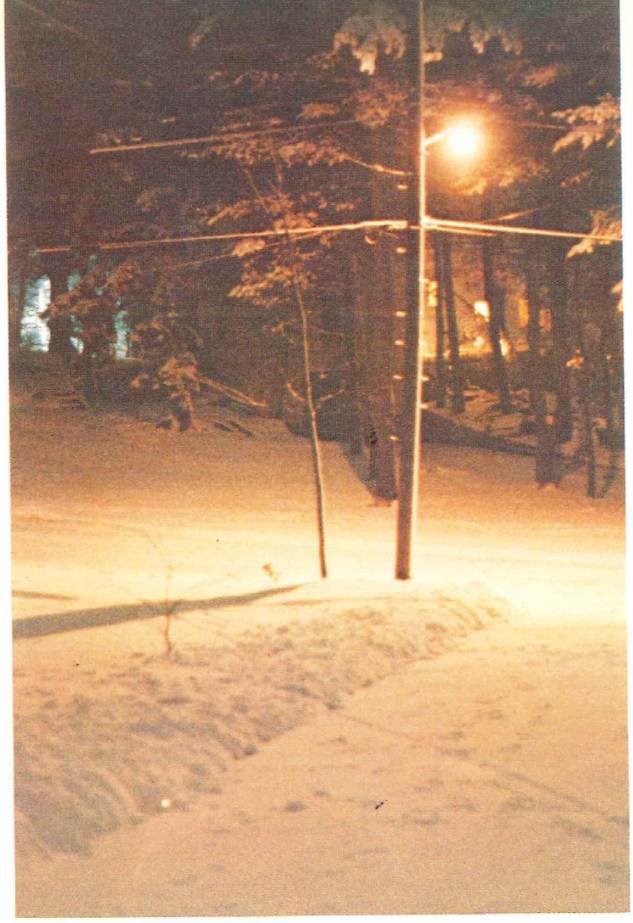

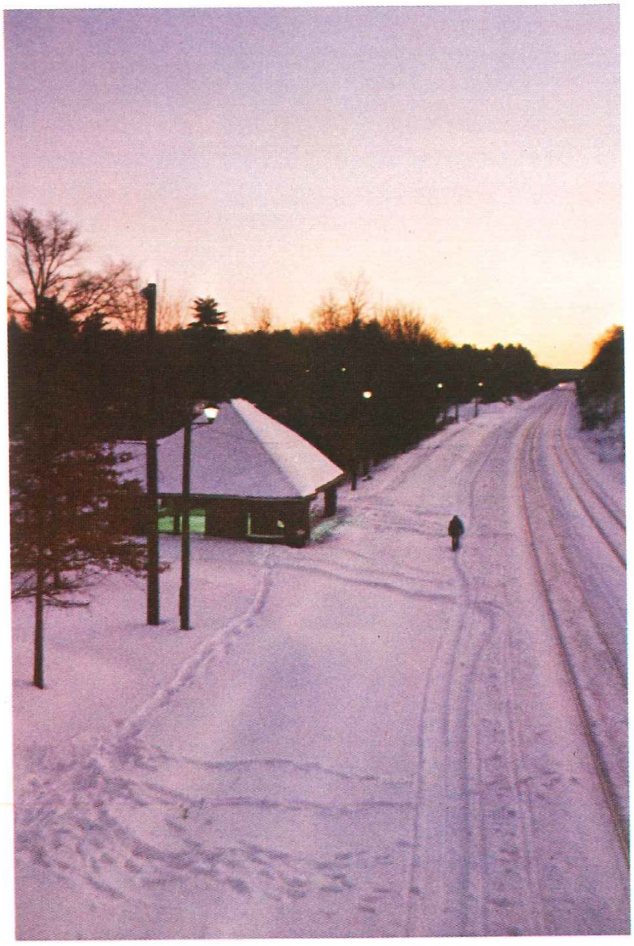

SNOW '78'

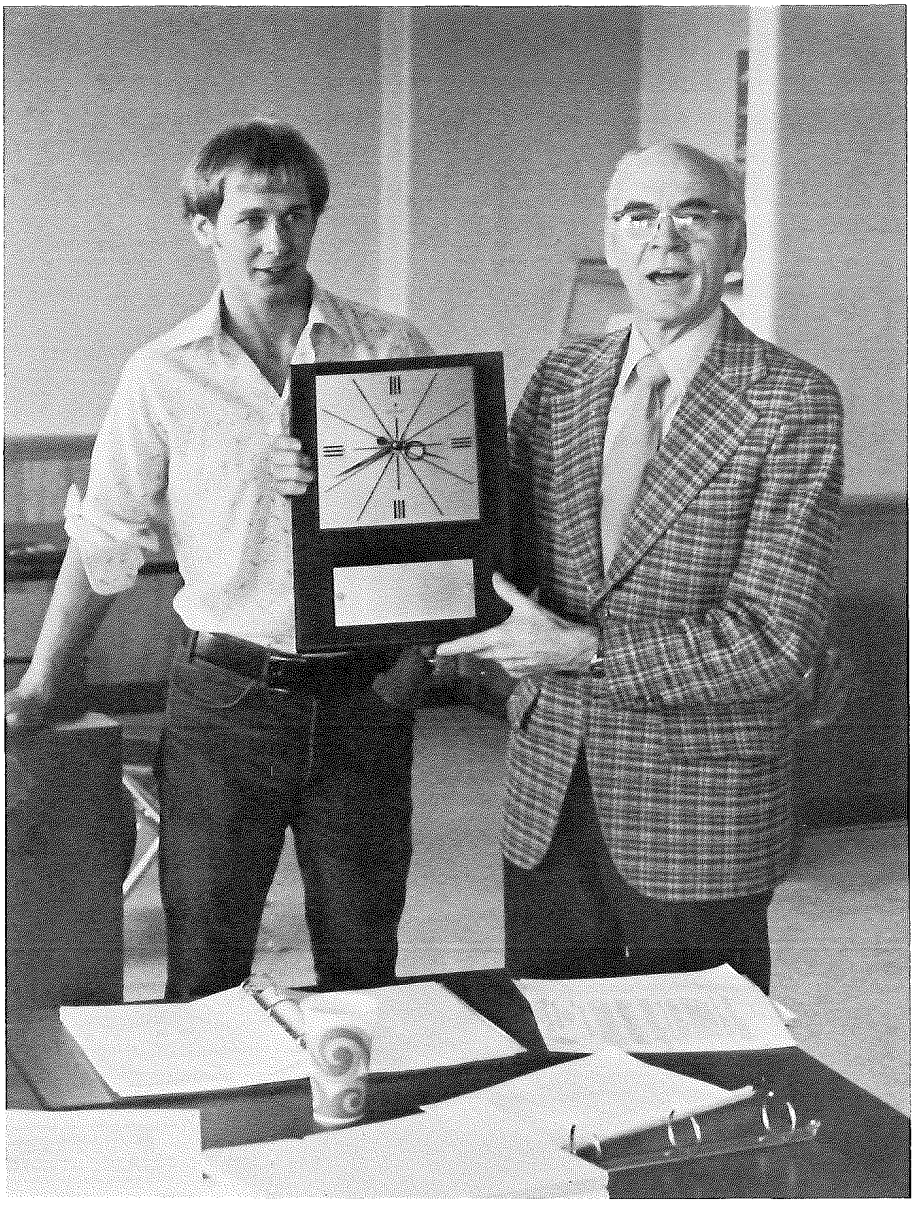

There is so much to be said about the Blizzard of "78". A blanket of snow 2½ to 4 feet deep that covered all of southern New England. A storm that turned the hustle and bustle of our cities and towns into a quiet iceatlantic wasteland.

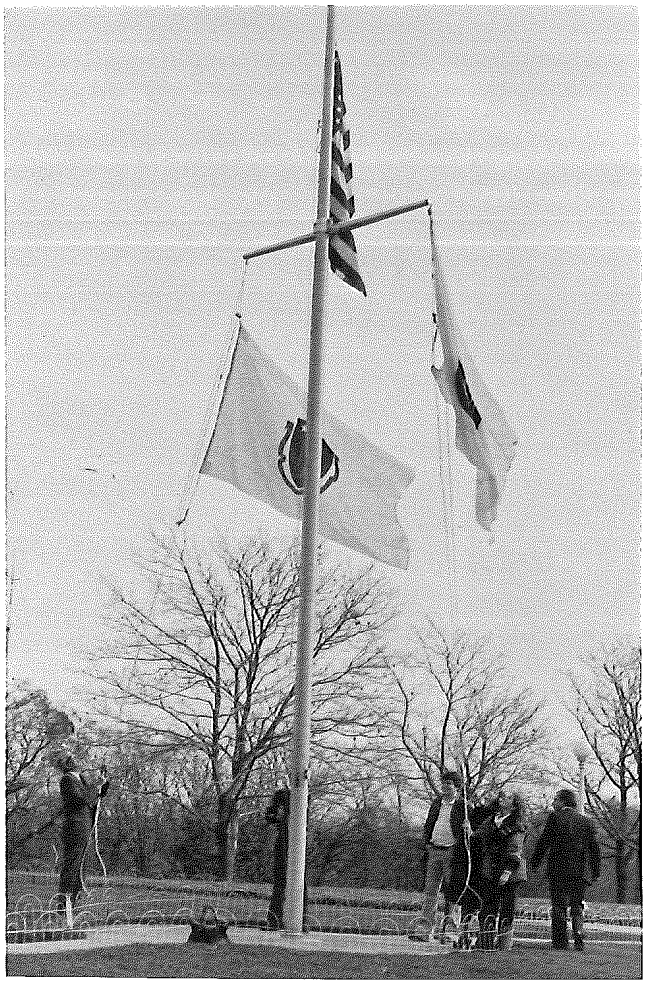

Thank You . . .

EXIT

DEDICATION

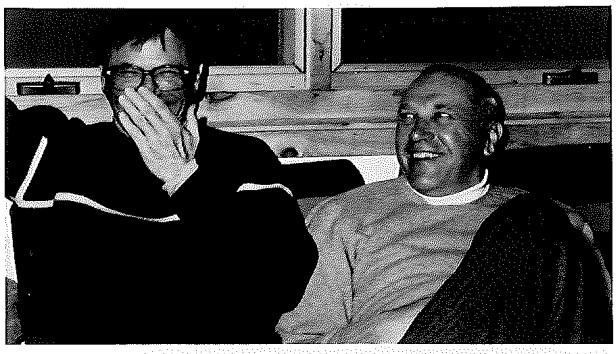

Dante DeGruttola

Regardless of the size and facilities a college possesses, its basic richness is judged by the scholarship and interest of its faculty. During the years of Greenyears publication, Massachusetts Bay Community College has witnessed a wealth of fine teachers and scholars. The Greenyears staff dedicates this 1978 publication to Dante DeGruttola.

Since his arrival at the College ten years ago, the faculty, staff and students have grown to respect his amiable personality, and the vibrancy and range of his creative abilities. Over the years, through his active participation with the Greenyears staff, he has demonstrated a loyalty and breadth of interest which has marked him as a person with an endless supply of warmth and energy. The overall excellence of these achievements has only been excelled by the depth of his commitment to superior teaching.

To the Members of the Class of 1978:

The class of 1978 is the 16th class to graduate from Massachusetts Bay Community College. We have come a long way in those years. This has been the first year that we are all together on our permanent Campus. As I look back over the years, I see so many people that took such an active part in making it happen; students, faculty, staff, legislature, friends, and so many more.

The physical campus is beautiful and tremendously important. However, the friendships and associations are what make Mass Bay special. Many of these friendships will remain with you for your entire lifetime. Cherish them.

You began a job two years ago. As you go forward there is so much ahead of you. This is the start of a substantially bigger role. For some it will be a role of leadership in the community; for others perhaps leadership in your country. The horizons are limitless.

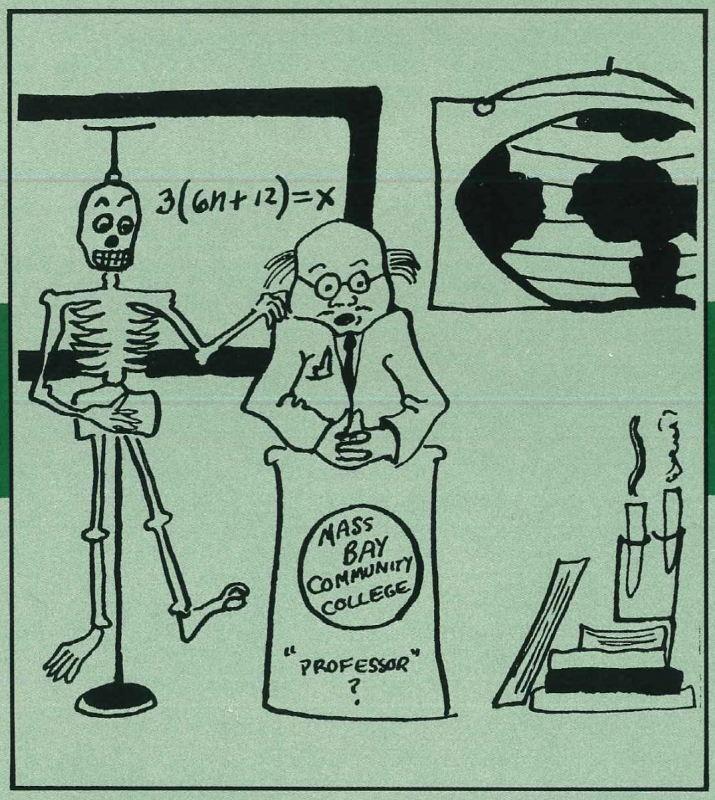

Through these past two years, many of you have developed a very real bond with faculty, staff and administration. I assure you we have gloried in your successes and felt the pains of your disappointments. We like to hope that we have had some measure of influence on whatever it is you become.

To accomplish all that lies ahead, you will have to make an objective assessment of yourself; your strengths and weaknesses, your special capabilities, and your God-given talent. Then settle for nothing short of the full utilization of all your abilities.

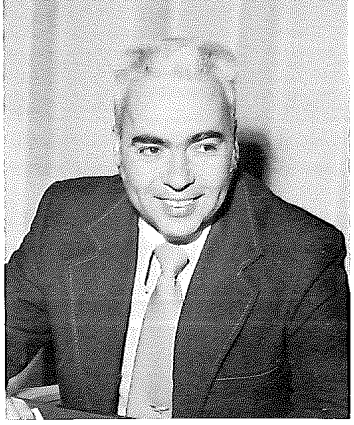

We are indebted to you for all you have given us and most importantly for your friendship. We will not forget you and it is our hope that you will not forget your "Alma Mater".

My wish for you is that your lives will be full and rewarding. Good luck and Godspeed.

BUSCH

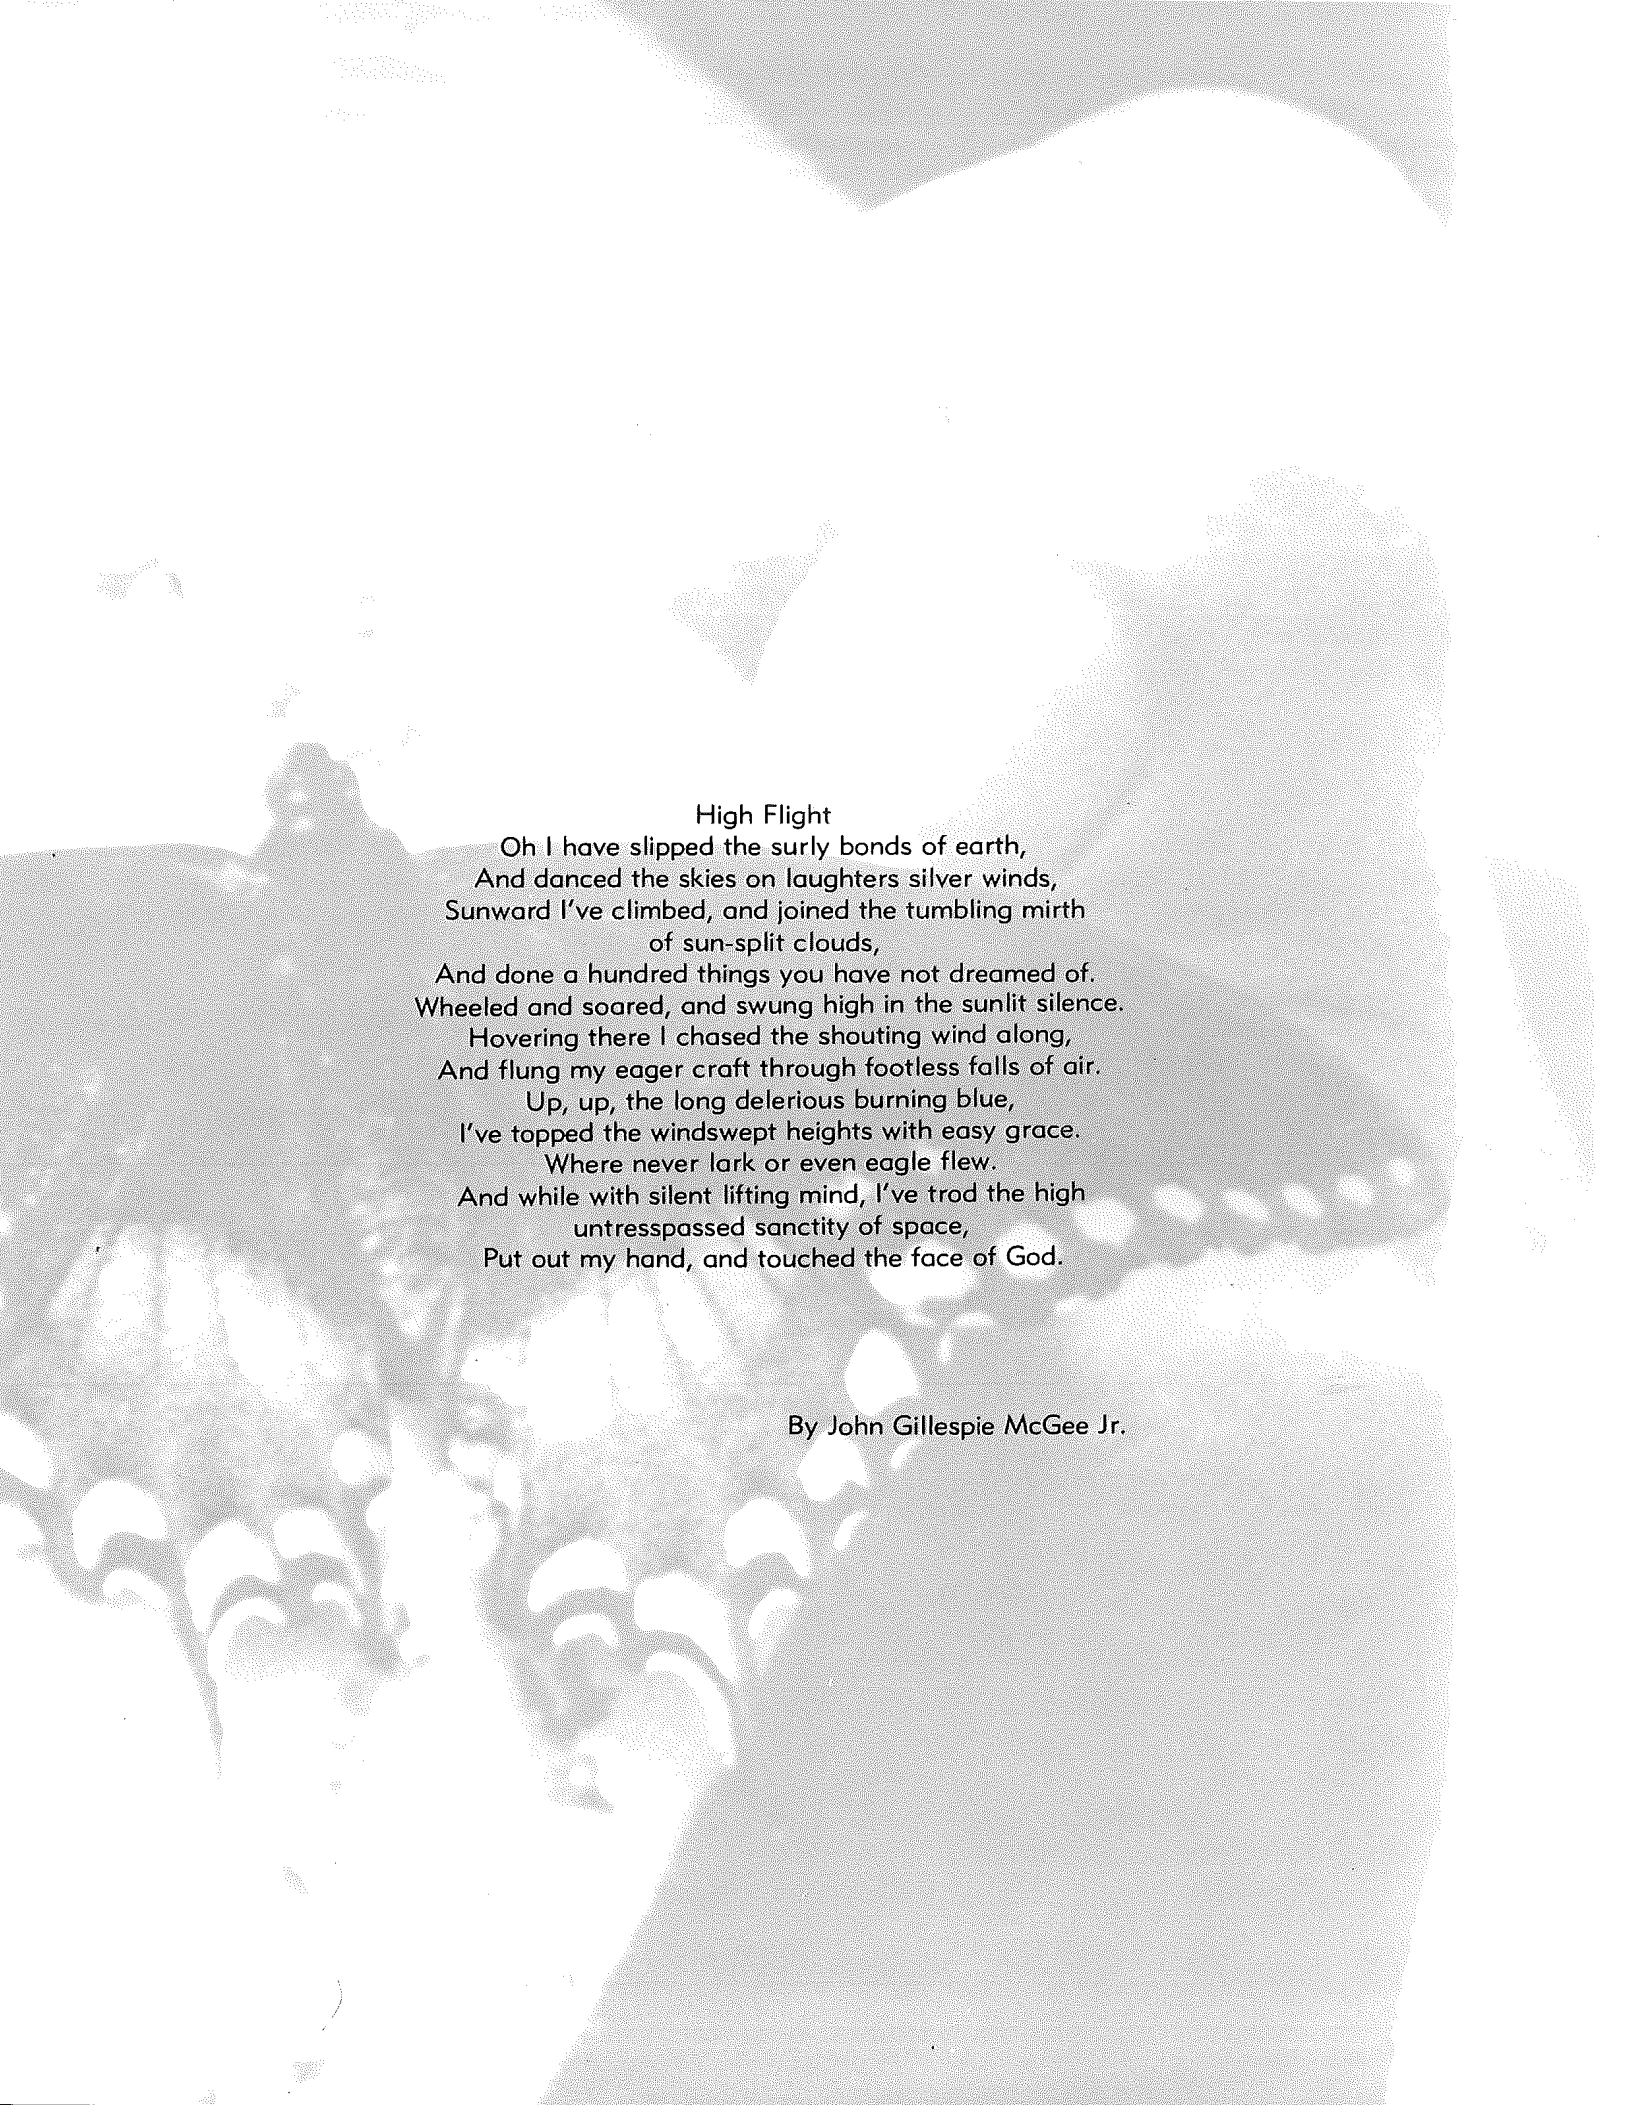

High Flight

Oh I have slipped the surly bonds of earth,
And danced the skies on laughters silver winds,
Sunward I've climbed, and joined the tumbling mirth
of sun-split clouds,
And done a hundred things you have not dreamed of.
Wheeled and soared, and swung high in the sunlit silence.
Hovering there I chased the shouting wind along,
And flung my eager craft through footless falls of air.
Up, up, the long delerious burning blue,
I've topped the windswept heights with easy grace.
Where never lark or even eagle flew.
And while with silent lifting mind, I've trod the high
untresspassed sanctity of space,
Put out my hand, and touched the face of God.

By John Gillespie McGee Jr.
